

Excel'O'Rate

Bringing you faster setting concrete.

Finish your project faster with Excel's latest innovation in specialised concrete products. Using Excel'O'Rate you can control concrete set times to suit your job requirements. Whether you need to finish your project sooner or meet early age strength requirements in cold weather there is an Excel'O'Rate product for you.

Benefits

- Reduce overtime and construction costs
- Increase workability
- Optimise trade, people and material resources
- Respond flexibly to changing weather conditions
- Schedule in additional jobs, set-ups or finishing work
- Reduce risk of vandalism
- Knock-off as early as you want

Get the most out of Excel'O'Rate

- Limit slumps to nominated value
- Don't add water on site
- Keep slab base free from water or ice
- Remove excess surface water

Excel'O'Rate is suitable for most concrete applications EXCEPT those that require bleed (for example, stencilled, dry shake coloured or patterned concrete). Excel'O'Rate complies with the special class concrete section of Australian Standards AS1379.

Order the right Excel'O'Rate product for your job, choose from Excel'O'Rate 1, 2 or 3 and control the set times of your next project.

Maximum set time from placing of the last load until concrete is finished				
Excel'O'Rate Mixes	Temperature at Last Load			
	5-10 °C	11-15 °C	16-24 °C	25-35 °C
Excel'O'Rate 1	7 - 8 hrs	6 - 7 hrs	5 - 6 hrs	4 - 5 hrs
Excel'O'Rate 2	6 - 7 hrs	5 - 6 hrs	4 - 5 hrs	3 - 4 hrs
Excel'O'Rate 3	5 - 6 hrs	4 - 5 hrs	3 - 4 hrs	2 - 3 hrs

*Set times are approximate only and may vary by +/- 1 hour (depending on climatic conditions). Please check product availability in your local area.
